Python Web Developer (Internship)

Sept 2025 - March 2026

Projection Edtech Pvt. Ltd, Dewas , MP

Worked on backend development using Python and Django for web applications

Collaborated with cross-functional teams to understand requirements and implement features

Designed and developed scalable, secure modules following best coding practices

PROJECTS

Grocery-management-system (using Django)

[grocery.in](#)

Grocery Management System with Django that includes safe user authentication login and registration.

Used full CRUD operations to handle grocery items, including uploading images and files bills.

Used HTML, CSS, and Bootstrap to make a responsive UI that works well for all users.

Successfully set up the application on Render, taking care of things like environment configuration, static files, and database integration.

Mellow- A complete Hotel Website

[mellow_hotel.in](#)

Imade a responsive hotelbooking website called Mellow using HTML, CSS, and modern UI design rules.

Made the homepage, rooms, services, and contact pages look nice to improve the user experience.

Made the layout, navigation, and mobile-friendly design clean so that it can be easily accessed on all devices.

Used GitHub Pages to deploy the project, which showed off my skills in frontend development and hosting.
